Textiles for beautiful living.

ABOUT REINO

Designed in the Netherlands.

Inspired by the way Europe lives.

REINO was born from a passion for textiles, interiors and the quiet beauty of well-designed spaces.

Drawing on years of experience in the textile world, we bring together craftsmanship, material knowledge and a distinctly European sense of style - now expressed through a collection of our own.

Designed in the Netherlands, our collections explore the harmony of texture, colour and light. Natural influences meet contemporary design; soft neutrals sit alongside carefully chosen colours; timeless essentials are complemented by pieces with character.

THE REINO PHILOSOPHY

Our philosophy is simple: beautiful interiors should feel effortless.

That philosophy extends beyond design. We work closely with experienced textile makers, carefully select our qualities and build our collections around reliability, continuity and fast delivery throughout Europe.

REINO is a new name shaped by years of experience.

A collection created not for a season, but for the way we live.
